Appendix 1: Recruitment Flowchart

Overview

The California Work and Health Survey is a population-based survey of 4,014 California residents, aged 18-70, conducted between November 2022 and May 2023. It was developed as part of the [California Labor Lab](#), a NIOSH Center of Excellence for *Total Worker Health*®

The survey was conducted by telephone interview or self-completed by participants using a web-based application. All survey administration was handled by Davis Research, LLP. Median completion time was 41 minutes for telephone and 24 for web-based surveys. Regardless of the method of completion, participants received a \$10 gift card in appreciation of their time and effort.

As its name implies, the purpose of the survey was to capture information about the employment and health status of California adults. There are three major sections of the questionnaire, [described in more detail below](#). The first – and longest – section focuses on employment. One special feature of the survey is the collection of information on jobs not worked at in the past week but were worked at in the past month. The rationale is that alternative and contingent forms of employment may be episodic and less likely to be captured in data collection solely about the week prior to interview. The survey includes

detailed questions about employment status and, among those working, work arrangements, working conditions, and occupation and industry of the job. Participants are asked about the main job that they held in the past week, defined as the one with the most hours, as well as a second job worked in the past week. Participants who were not working in the past week were asked the same series of questions about a main job that they held in the past month, if any. Participants who were not currently employed were asked when they had last worked. Currently employed respondents were also asked about their longest job held.

The health section includes questions about overall physical and mental health status, along with questions concerning chronic illness diagnoses, functional limitations, pain and other symptoms, perceived stress, occupational injury, height, weight, health behaviors, and health insurance coverage.

The final section includes basic demographic information, including household composition, paid and unpaid caregiving for household/family members, household income and individual earnings, benefit reciprocity, and financial strain.

After data collection was completed, sampling weights were developed so that the responses are generalizable to the non-institutionalized California population, aged 18-70. More details on the weighting process are available below.

Sampling Methodology

Sampling Frame

Because approximately 98% of all adults in the target population (Californians 18-70) have a cell phone, only cell phone numbers were used for this project. Random samples of cell phone telephone numbers were purchased from a supplier of telephone samples, using a split frame methodology. The listings included both a pure random digit dial (RDD) sample of cell phone numbers with California area codes and a set of listed cellular numbers of people currently living in the state, regardless of area code. Split frames provide the best chance to include a probability selection for nearly every cellular telephone in California, since so many residents have an area code that was generated outside of the State of California and would be otherwise excluded from the sample frame. To ensure a wide range of income strata in the sample, the listings included phone numbers on both pre-paid and post-paid plans.

This sampling methodology of individuals (via cell phones) negated the need for respondent selection procedures when multiple household members share a landline. It also simplified the post-survey statistical weighting process, [described below](#).

Participation Rates

From 134,725 call attempts, we made 15,164 contacts with potential participants. A total of 9,024 individuals declined to participate or did not complete the interview. A further 2,126 were ineligible due to age, language (neither Spanish nor English), or residence outside of California. A total of 4,014 responded to the survey (26% of contacts made; 31% of contacts after excluding the 2,126 known to be ineligible). A detailed flow chart is included in [Appendix 1](#).

Data Collection Methods

The survey was administered in English and Spanish either by telephone from Davis's computer-assisted telephone interviewing (CATI) call center in Calabasas or by completing an on-line version. Up to eight call attempts were made to reach and interview an eligible subject at each usable telephone listing. Callbacks were made throughout the day and evening hours seven days a week, excluding holidays. Additional call attempts were made to respondents who were found to be eligible for the survey but who did not complete the survey immediately after being administered the survey screening. Those who could not be re-contacted after repeated attempts were then sent email and text message invitations encouraging them to complete the survey online. Because of the length of the survey, many respondents were screened initially over the telephone and then offered the option to finish the study online; they were sent a text or e-mail with directions to finish. If they did not complete the survey online, they received additional telephone calls. Most respondents who began the survey (70%) ultimately completed it.

Screening questions were administered at the beginning of the survey to identify eligible respondents ages 18 to 70 within California. Once identified, eligible respondents were provided with a broad description of the study, its objectives, sponsorship, and auspices. To encourage participation, respondents were offered an incentive of \$10 sent via check or e-gift card from a national retailer.

Weighting Strategy

Sample adjustment weights were developed to bring the survey sample into alignment with known characteristics of the population of California adults ages 18-70, using a common procedure known as raking, also referred to as sample balancing. Raking is an iterative process in which survey estimates are controlled to their marginal population distributions.¹ The raking process can be thought of as a multidimensional poststratification procedure because the weights are post-stratified to one set (or dimension) of control totals, and these adjusted weights are post-stratified to another dimension. This process is then iterated until the control totals for all dimensions are simultaneously satisfied, resulting in the production of a final single weighting assignment for each respondent.

The population estimates of demographic variables (age, sex, and race/ethnicity), geographic variables (counties or combinations of counties), and socio-economic variables (educational attainment and employment status) of the population of California adults ages 18-70 were derived from the U.S. Census Bureau's 2021 American Community Survey (ACS) and from the Bureau of Labor Statistics.

The specific variables used in creating the weighting targets (either alone or in combination with one another) included: geographic region, gender, age, race and ethnicity, educational attainment, Supplemental Nutrition Assistance Program (SNAP) benefit reciprocity, labor force participation, and having a pre-paid cellphone plan.

The sample weights [weight] are proportional to the total sample size. These weights range from 0.08 to 6.0 and sum to 4,014. The datafile also includes an expansion weight [weight_pop], which sums to the 2022 California population aged 18-70. These weights range from 534 – 40106 and sum to 26,831,016. Both weights yield the same percentage of the population for any given characteristic. The sample weight is more useful in calculating statistical significance since it is scaled to the actual sample size of 4,014; the expansion weight permits estimates of how many individuals in the State have a characteristic.

Questionnaire Sections, Usage Notes, and Instruments

The questionnaire began with a screening section, designed to ascertain eligibility for the survey (California residence and age 18-70). The verbal consent to participate was also included at this point in the survey, and gender ascertained to facilitate future skip patterns.

Throughout the questionnaire, variables were coded with -9 to indicate non-response (decline to answer for any reason). Prior to any analyses, users should drop, recode, or impute these values. A missing value in the survey indicates that the respondent was not part of the universe for this question, i.e. that the item was logically skipped in the questionnaire, such as employment questions for those not working.

The sections of the main questionnaire, and any relevant usage notes, are enumerated below:

Employment Section (Q001–163)

The initial questions (Q001–017) determined employment status in the past 7 days, following the methodology of the Current Population Survey administered by the U.S. Bureau of the Census for the Bureau of Labor Statistics.² This part of the questionnaire also provided information about extent of work in the past year, and when last worked.

Questions Q018 – Q058 constituted the “Job Battery.” These items contained detail about respondents’ current jobs, including occupation and industry; employment arrangements³ including self-employment, independent contracting, on-call employment, working for a temporary hiring agency, and having one’s work contracted out; contingent employment defined as work not expected to continue; and working conditions such as the physical and psychosocial demands⁴ of jobs, supervisorial and subordinate status, nature of shift, and flexibility of work.

Currently employed participants were asked about the job that they worked at most in the past 7 days. Those not working in the past 7 days were asked the same series of questions about the job that they worked at in the past 30 days. Participants with more than 1 job (in the past 7 or 30 days) were asked the same basic series of questions about a second job. To reduce respondent burden, fewer questions were asked about a second job in the past week. As a reference –

Q018 - Q058 refer to the job worked (the most hours) in the past 7 days.

Q059 - Q099 refer to the 2nd job worked in the past 7 days.

Q102- Q142 refer to the job worked in the past 30 days (but not the past 7 days).

Occupation and Industry coding. Occupation and Industry data were collected as text responses in the job battery sections above. The NIOSH Occupational Computerized Coding System (NIOCCS)⁵ was used to apply SOC and NAICS codes to the responses. NIOCCS provides a reliability score along with each code. Any response with a reliability <0.8 was manually coded by investigators and staff of the CA Labor Lab, with a secondary review if questions still remained. The codes were applied at the most detailed level possible from the response (up to 6-digits), but at times the responses could not be categorized beyond a 2- or 3-digit code. For all coded responses, a 2-digit and 3-digit level code was created in order to provide increased sample size in each category. Note that the top-level of some NAICS industry codes actually comprise several 2-digit codes (manufacturing [31-33], retail trade [44-45], transportation & warehousing [48-49]). For the 2-digit codes, only the first numbers in each series were used.

ABC Criteria (Q033a-c). The “ABC” criteria are used in California courts to determine appropriate classification as an independent contractor.⁶ As part of the project, we developed measures of the ABC

criteria for inclusion in this self-reported survey. These items were asked of people who identified themselves as independent contractors, as app-based workers, and/or those who stated that they received a 1099 tax form.

Note that Q033b is also a text response, asking for the industry of the company. The intent is to compare the industry identified initially by the respondent with this industry. As of this writing, that comparison has not been made; we have simply provided the codes corresponding to the text response, using the same method as above.

Following the Job Batteries, respondents were asked about displacement from work in the past 3 years, longest job held (occupation, industry, and job tenure), and experience of discrimination at work by category, including gender, sexual orientation, race/ethnicity, age, and disability status.

Main and Second Jobs. As described above, respondents answered questions about one or two jobs held in the past week, one job in the past week and one in the past month, or a single job held in the past month (if they did not work in the past week). The flow of the questionnaire resulted in three different sets of "job battery" questions – the first 7-day job, the second 7-day job, and the 30-day job. The 30-day job could either be the only job described, or it could be the second job described, depending on the individual respondent's situation. To allow for another way of analyzing these jobs, an alternate set of job battery variables is included in the datafile, referred to as 'main' and 'second' jobs. The main job variables (with suffix "mn") include the responses to either the first 7-day job or the 30-day job when the respondent didn't work in the past week. The second job variables (with suffix "sc") include responses to either the second 7-day job or the 30-day job when the respondent had only 1 job in the past week. These variables are listed in a separate section of the Codebook. Two variables, [mainjobtype] and [secondjobtype], identify whether the responses are related to a job held in the past 7 days or the past 30 days.

Health Section (Q164–201)

This section included brief assessments of overall physical and mental health status derived from the PROMIS Global Health 1.2 measures⁷, specific common chronic conditions, common symptoms, and physical functioning and limitations, all based on the National Health Interview Survey⁸. It also included the 4-item Perceived Stress Scale.⁹ Employed and recently employed respondents were asked about workplace injuries. The questionnaire asked about health behaviors, including smoking, alcohol use, and physical activity, derived from the Behavioral Risk Factor Surveillance Survey.¹⁰ Height and weight were also queried. The section ended with questions on health care utilization and health insurance coverage.

Chronic conditions. Respondents were asked if they have or are being treated for a chronic condition, defined as a long-term condition that has already lasted or can be expected to last for three months or more. Those who replied affirmatively were asked a list of specific conditions. Some such individuals responded negatively to each of the individual conditions, either because they had one that was not listed, or they were unfamiliar with the name of the condition. We have retained their initial positive response to the screening question.

Demographics Section (Q205–228)

In addition to age and gender, which were ascertained in the screening questions, this section included basic sociodemographic questions – marital status, education (self and spouse, if any), household size and composition, race, ethnicity, nativity, and language spoken at home. Latino, Asian, and Pacific Islander respondents were asked to what country or countries they trace their ancestry, and those born outside the US were asked their country of origin. It also included questions about caregiving for children and adult family members.

Race and Ethnicity. Respondents selected as many racial categories as applied, in keeping with common practice. However, respondents could also select Latino as a ‘race’ category, rather than requiring them to select a non-Latino race category and then ask about Latino ethnicity separately. Respondents who did not select ‘Latino’ in the initial question were asked if they are of Hispanic origin. Thus, the Census model of separately reporting Hispanic ethnicity and race can be reconstructed here, if need be.

Finances Section (Q229–238)

This section included questions on levels of household income and individual earnings, kinds of income received, benefit reciprocity, home ownership, homelessness, and financial strain.

Poverty Level Income. The questionnaire was designed to determine if respondents had household incomes that were at or below 125% of the 2021 Federal Poverty Guidelines, based on their reported household income levels and household size. The CWHS estimate of this poverty level is substantially higher than the California component of other national surveys. One reason is that the CWHS asked more generally about household income than other surveys; it is also possible that respondents misunderstood the meaning of ‘household’ and included people in the response to the question about household size who were not actually supported by the household income. In support of this hypothesis, poverty rates match other surveys’ estimates more closely for small households. Although the poverty rate may not match other surveys, respondents at or under the poverty line in the survey did report other characteristics consistent with low household income, for example low individual earnings, high rates of public benefit reciprocity, and reports of experiencing food, housing, and medical care insecurity. The cautious strategy is to use the CWHS poverty variable as a measure of economic level and relative economic position rather than as a way of characterizing the extent of poverty in the State.

Data Issues

Missing Data. The CWHS is a complex survey, with a vast number of embedded conditional statements controlling which questions are presented to the interviewer (or respondent in the case of self-completed surveys). The survey team put the questionnaire through rigorous and repeated tests to ensure accuracy of the underlying logic. Nevertheless, errors arose, mainly due to human error in interpreting the questions or responses. The most noteworthy of these resulted in 34 individuals (0.8% of all respondents) being skipped from the job battery section, even though they appear to have had jobs in the 7 days prior to interview. For any analysis of employment characteristics, these responses should be dropped or imputed. They are indicated with a flag variable called [missingemployedflag]. The individual job battery questions for these respondents are coded with -5.

On call work (Q040a/Q081a/Q124a). In an early version of the survey, the items about working on-call included neither the timeframe nor the definition of on-call work, resulting in a very high proportion of

respondents endorsing on-call work (30% among the first 1,204 respondents who worked in the past 7 days). Subsequently, the question was changed to match the CPS Contingent and Alternative Work Supplement questionnaire from 2017.³ In order to use the first set of respondents, we performed an imputation procedure to fill the responses to the corrected question, had they been asked. Random hotdeck imputation¹¹ was used to impute missing values for participants who answered the old version of the questions (recipients) based on the observed values of respondents who answered the new version of the questions (donors) and were similar to the recipients in relevant variables, based on statistical consideration and the investigators' subjective knowledge of the questions being imputed. A random forest technique was used to evaluate the importance of each variable to predict the response to the new version of the questions, and then investigators evaluated the important variables identified by the random forest based on their subjective knowledge of these variables. For the three questions to be imputed the following variables were selected: survey language, delivery method (phone or web), working part-time and part-year (vs other work patterns), working rotating or variable shifts (vs. other kinds of shifts), and if the job offered health insurance.

Donor pools were created for recipients with same values of the five relevant variables. Then one donor from each recipient's donor pool was randomly selected for the recipient, and the recipient's missing value was replaced with the observed response from the donor. The imputation procedure substantially reduced the estimate of on-call work from 30% to 5.5% (in the main 7-day job).

The variables [q040a_flag; q081a_flag; q124a_flag] indicate which respondents had their answers imputed. The original variables (q040, q081, q124) are also included in the file, for comparison. They should not be used in any analysis.

Perceived Stress Scale (Q176). The 'never' category in the Perceived Stress Scale (PSS) was inadvertently left off the questionnaire, and therefore the lowest value response was 'almost never'. Although this will make the PSS scoring less comparable to other published results, we believe that the responses can still be used to indicate high levels of perceived stress.

App-Based Work (Q028, Q069, Q112, etc.). Because our estimate of app-based work prevalence is higher than other comparable surveys, we reviewed app-based work responses for possible false positives if the respondent did not give an app name, or filled out the "other" text response. Our review followed the process used by the Bureau of Labor Statistics when they piloted questions about "electronically mediated work" in [the May 2017 Contingent Worker Supplement](#). Q028, Q069, Q112, etc. are the updated responses, with likely false positive responses recoded to zeros. The original values are also included in the file as q028[a]_old, q069[a]_old, q112[a]_old, etc. for comparison, including old versions of app categories (q028ai_rideshare, q028ai_delivery, etc...) and main/second job variables (q028[a]mn_old, q028[a]sc_old).

Subcontracting/Work Contracted Out (Q037, Q078, Q121). Like app-based work, our estimate of subcontracting prevalence was higher than other surveys, and we undertook a review process for all affirmative subcontracting responses. We recoded responses from "yes" to "no" in cases that were very likely false positives. The original values are included in the file as q037_old, q078_old, q121_old for comparison.

Acknowledging the Survey and Funding Source

Users of the California Work and Health Survey dataset must acknowledge support from the California Labor Lab and its funder in all publications and presentations.

Appendix 1: Recruitment Flowchart

2022 CALIFORNIA WORK AND HEALTH SURVEY – BASELINE QUESTIONNAIRE

Variable names shown in [square brackets] either on the left margin or directly below the question. They are usually the same as the question number. (Items marked with ** have been deleted from public use dataset.) For every item in the survey, the value -9 refers to a question that was asked but not answered by the participant.

SURVEY ADMINISTRATION QUESTIONS

[SERIAL]	NUMERIC ID NUMBER	_____
[ID]	ALPHANUMERIC ID NUMBER	_____
[PATH]	TYPE OF DATA COLLECTION	TELEPHONE 1 WEB (SELF-COMPLETED) 2
[DATE]	**DATE OF INTERVIEW**	_____
[LANGUAGE]	LANGUAGE OF INTERVIEW	ENGLISH 1 SPANISH 2
[STATUS_ REVISION]	**PHASE OF INTERVIEW**	1 ST PRE-TEST 1 2 ND PRE-TEST 2 3 RD PRE-TEST 3 FINAL VERSION 4
[PREPAID_INDICATOR]	RESPONDENT REACHED ON PRE-PAID CELL PHONE	YES 1 NO 0
[LOI]	LENGTH OF INTERVIEW, MINUTES	_____
[MISSING_PERCENT]	PERCENT OF ASKED QUESTIONS WHICH RESPONDENT DID NOT ANSWER	_____
[WEIGHT]	PROPORTIONAL SAMPLING WEIGHT, ALIGNS TO CA POPULATION AGED 18-70	_____ (RANGE: 0.08 – 6.0)
[WEIGHT_POP]	POPULATION WEIGHT, SUMS TO CA	_____ (RANGE: 534 – 40,000)

POPULATION AGED 18-70

INITIAL SCREENING QUESTIONS

[A1A] What is your age? _____

IF PREFER NOT TO ANSWER, ASK:

[A1B] We don't need to know exactly, but which of the following age categories are you? (READ CATEGORIES)	18-20 years old	1
	21-24	2
	25-29	3
	30-39	4
	40-44	5
	45-49	6
	50-59	7
	60-64	8
	65-70	9
	OVER 70	10

[A1C] How would you describe your gender? (READ CATEGORIES AS NEEDED) (IF REFUSED, PLEASE SELECT GENDER ON VOICE)	MALE.....	1
	FEMALE	2
	TRANSGENDER MALE.....	3
	TRANSGENDER FEMALE	4
	NON-BINARY	5

SUMMARY EMPLOYMENT VARIABLES

THE FOLLOWING VARIABLES ARE CALCULATED BASED ON COMBINED RESPONSES TO SOME OF THE EMPLOYMENT STATUS QUESTIONS THAT FOLLOW:

[CURR_EMP] Calculated variable for employed in past week. YES 1
NO 0

Defined as: **Q001=1 OR Q001A=1,2,3 OR Q002=1**

[THIRTYDAY] Working at a job in past 30 days, different than job YES
..... 1
worked in past 7 days (if any). NO 0

[ANYSUMM] Working in past 7 days, or in past 30 days YES 1
NO 0

Defined as: **CURR_EMP = 1 OR THIRTYDAY = 1**

[MONTHEMPSTATUS] Detailed employment status in month/week NOT WORKING 0

1 JOB IN 7 DAYS (ONLY) 1

2+ JOBS IN 7 DAYS..... 2

1 JOB IN PAST 30 DAYS (ONLY) 3

2+ JOBS IN PAST 30 DAYS 4

JOB IN PAST 7 DAYS & JOB IN PAST
30 DAYS..... 5

[MISSINGEMPLOYED] Respondent is currently employed but job battery YES
1
information is missing. NO0

2022 CALIFORNIA WORK AND HEALTH SURVEY

EMPLOYMENT QUESTIONS

We'll begin by asking about your work in the past week. We're interested in *all* the work you did for pay or profit, whether in a formal job with definite work on a continuing basis, as a business owner or an independent contractor, or informal work or odd jobs you took on for pay.

[Q001] What were you doing most of last week? Were WORKING 1 **SKIP TO Q3**

you working, were you not at work but had a job, NOT AT WORK, BUT HAD A JOB 2

were you looking for work, keeping house, going LOOKING FOR WORK 3

to school, unable to work, retired, or what? KEEPING HOUSE 4

(ACCEPT ONLY ONE RESPONSE) GOING TO SCHOOL..... 5

UNABLE TO WORK 6

RETIRED 7

OTHER (SPECIFY)8

VACATION BUT HAVE A JOB.....9

[GEN 1 TO 1A IF Q1 = 9]

SICK BUT HAVE A JOB.....10

[GEN 2 TO 1A IF Q1= 10]

CAREGIVER FOR FAMILY MEMBER...11

WORK AND SCHOOL EQUALLY.....12

[Q001_OTHER_SPECIFY]

IF NOT WORKING BUT HAD A JOB (Q001 = 2) ASK:

[Q001A] What was the main reason you were not at work last week ?	On vacation	1 SKIP TO Q3
	Illness, bad weather, or labor dispute	2 SKIP TO Q3
	Issues with childcare	3 SKIP TO Q3
	Temporary lay-off	4 SKIP TO Q9
	Indefinite lay-off	5 SKIP TO Q9
	About to start a new job in the next 30 days	6 SKIP TO Q15
	-or -some other reason	7 SKIP TO Q10
	DON'T KNOW	SKIP TO Q10

IF LOOKING FOR WORK, KEEPING HOUSE, GOING TO SCHOOL, UNABLE TO WORK, RETIRED, OTHER (Q1=3-8), ASK:

[Q002] Did you do any work at all last week for pay or profit? This could include informal paid jobs like driving others, doing errands or repairs, or providing care to people inside or outside of your family, or unpaid work in a family farm or business?	YES	1 GO TO Q3
	NO	0 SEE BELOW

IF DID NOT WORK IN THE LAST WEEK & NOT LOOKING FOR WORK (Q002=0 AND Q001=4,5,6,7 OR 8), GO TO Q10
IF LOOKING FOR WORK (Q001=3), GO TO Q11

IF CURRENTLY EMPLOYED (CURR_EMP = 1), ASK:

[Q003] Did you have only one paying job or more than one job (Q005) last week? Include part-time work done in the daytime, evenings or weekends.	ONLY ONE JOB	1 (GO TO Q005)
	MORE THAN ONE JOB	2

IF HAS MORE THAN ONE JOB (Q003=2), ASK:

[Q004] Altogether, how many different paying jobs did you have last week?	_____ JOBS
---	------------

[Q005] How many hours in total did you work (at all your jobs) last week?	_____ HOURS
---	-------------

IF 35 HOURS OR MORE, GO TO Q016

IF WORKED LESS THAN 35 HOURS OR DK, ASK:

[Q006]	Do you usually work 35 hours or more a week at (this job)/these jobs?	YES	1 GO TO Q016
		NO	0
(THERE IS NO Q7)			
IF Q006=0 , ASK:			
[Q008]	Would you prefer to work full-time (that is, 35 hours a week or more)?	YES	1
		NO	0
ALL RESPONDENTS TO Q008 GO TO Q016			

IF TEMPORARILY OR INDEFINITELY LAID OFF (Q001A=4 OR 5), ASK:

[Q009]	How many weeks ago were you laid off? Just your best estimate.	_____ WEEKS
(RECORD "0" IF THIS HAPPENED IN THE LAST WEEK)		

IF NOT CURRENTLY EMPLOYED (Q002=0 AND Q001=4,5,6,7,8) OR (Q001A=4,5,7 OR DK), ASK:

[Q010]	Have you been looking for work during the past four weeks?	YES	1
		NO	0

IF LOOKING FOR WORK [Q010=1 OR (Q001=3 AND Q002=2)], ASK:

[Q011]	How many weeks have you been looking for work? Just your best estimate.	_____ WEEKS
--------	---	-------------

THERE IS NO Q 12. IF NOT LOOKING FOR WORK (Q010=0,) ASK:

[Q013]	Do you want a regular job now, either full-time or parttime?	YES	1
		NO	0

[Q014]	Do you intend to look for work of any kind in the next 12 months?	YES	1
		NO.....	0

[Q 5]	How many years has it been since you CURRENTLY EMPLOYED	0 (GO TO 16)
	last worked at a job or business, either 1 YEAR AGO OR LESS	1 (GO TO Q16)
	part-time or full-time?	1 TO 3 YEARS 2 (SKIP TO Q143)
		MORE THAN 3 YEARS 3 (SKIP TO Q161)
		NEVER WORKED 4 (SKIP TO Q164)
		NOT ANSWERED -9 (SKIP TO Q143)

IF CURRENTLY EMPLOYED (Q002=1) OR WORKED IN THE PAST YEAR (Q015=1), ASK:

[Q016]	During the last 12 months, how many weeks were you working for pay even if only for a few hours?	_____ WEEKS Include paid vacation and sick leave as work.
[Q017]	During the last 12 months, how many hours did you usually work (when you	_____ HOURS a week IF CURRENTLY EMPLOYED GO TO Q018

were working)?

IF WORKED IN PAST YEAR GO TO Q100

THE "JOB BATTERY" -- QUESTIONS ABOUT CURRENT AND RECENT JOBS

Each respondent can complete up to 2 job battery series, although some questions are only asked about the first job reported.

Q018 – Q058 refer to the job worked (the most hours) in the past 7 days.

Q059 –Q099 refer to the 2nd job worked in the past 7 days.

Q102-Q142 refer to the job worked in the past 30 days (but not the past 7 days).

Note that the text of the questions is not repeated here. There are slight variations in the wording, just to clarify to the respondent which job is being queried. The question numbers are included in [brackets]. If there are only 2 question numbers for a given question, it indicates that this question is only asked for the first job and is included in the 1st 7-day series and the 30-day series, as appropriate.

IF CURRENTLY EMPLOYED, ASK:

The next series of questions are about your current/main job or business.

18. What is your occupation? What kind of work do you do? [Q018/Q059/Q102]

average on a scale of 0-10,

PAIN LEVEL ON AVERAGE

[Q173]

THERE IS NO Q 174

175. Using the same 0-10 scale, over the last 12 months what was the worst pain in the following regions of the body that lasted 3 days or more?

- a. Neck or shoulder? [Q175_a]
- b. Back or hips? [Q175_b]
- c. Elbow, hand, or wrist? [Q175_c]
- d. Feet or knees? [Q175_d]

IF Q175_A, B, C, OR D >=3, ASK:

175e. Does pain currently interfere with your daily activities?	YES	1
	NO	0
[Q175E]		

175f. In the past 12 months, have you had trouble breathing YES 1
or shortness of breath that lasted for 3 days or more? NO 0
[Q175f]

175g. In the past 12 months, have you had numbness, YES 1
tingling, or burning sensation in your hands, legs, NO 0 or
feet that lasted 3 days or more? [Q175g]

176. The next questions ask about your feelings and thoughts during the past month. In the past month, how often have you felt or thought (ITEM) -- almost never, sometimes, often or very often? [Q176_a-d]

	ALMOST NEVER	SOMETIMES	OFTEN	VERY OFTEN	a.	Felt that you were unable to control the
important things in your life.....					1	2 3 4 b. Felt difficulties
were piling up so high that you						
could not overcome them.....					1	2 3 4 c. Felt that
things were going your way		1	2	3	4	d. Felt confident about your
ability to handle your personal problems						1 2 3 4

THERE IS NO Q 177

178. Do you have or are you being treated for a long-term medical YES 1
condition? A long-term condition is one which has already lasted NO 0
three months or can be expected to last that long. [Q178]

179. Are you limited in any way in activities because of a long- YES 1 term
physical or mental impairment or medical condition? NO 0 (SKIP TO Q180)
[Q179]

IF Q179=1, ASK

179a. Does your long-term physical or mental impairment or medical condition now keep you from working at a job or business?	YES	1 (SKIP TO Q180)
	NO	0
[Q179A]		
IF Q179a = 0 OR DK, ASK:		
179b. Are you limited in the kind or amount of work you can do because of your long-term impairment or health problem?	YES	1
	NO	0
[Q179B]		

IF HAS OR HAS BEEN TREATED FOR A LONG-TERM MEDICAL CONDITION (Q178 = 1), ASK

180. Now we're going to ask about any medical conditions that you may have. Do you have or are you currently being treated for... (ITEM)? [Q180_a-o]

	YES	NO
a. high blood pressure or hypertension	1	0
b. heart disease, including angina), congestive heart failure, heart attack or other heart problems	1	0
c. diabetes	1	0
d. any form of cancer	1	0
e. asthma	1	0
f. migraine headaches	1	0
g. a chronic lung disease, like emphysema or chronic bronchitis	1	0
h. ulcer	1	0
i. kidney or bladder problems	1	0
j. back problems	1	0
k. repetitive strain injury or carpal tunnel syndrome	1	0
l. arthritis	1	0
m. thyroid disease	1	0
n. uncorrectable or severe visual impairment or blindness	1	0
o. hearing impairment or significant hearing loss	1	0

IF CURRENTLY EMPLOYED (CURR_EMP = 1) OR WORKED IN THE PAST YEAR (Q015 = 1), ASK Q181:

181. In the past 12 months, have you had an on-the- YES, ONE 1 job
injury? YES, MORE THAN ONE 2
NO 0 [Q181]

IF Q181=1 OR 2, ASK:

181a.	Did your on-the-job injury in the past 12 months require medical attention?	YES 1 NO 0 [Q181A]
181b.	Did you report your on-the-job injury in the past 12 months to anyone in your workplace?	YES 1 NO 0 [Q181B]
181c.	Did you receive any workers compensation payments for your on-the-job injury in the past 12 months?	YES 1 NO 0 [Q181C]

THERE IS NO Q182 OR Q183

184. Have you smoked at least 100 cigarettes in your entire life? YES1
Not e-cigarettes or marijuana. NO0

[Q184]

IF Q184=1, ASK:

185. How old were you when you first started smoking cigarettes? _____ YEARS

[Q185]

186. Do you now smoke cigarettes every day, some days, or not at all? EVERY DAY.....1
all? SOME DAYS..... 2

NOT AT ALL..... 3

[Q186]

IF Q186=1 OR 2, ASK:

187. On average, how many cigarettes do you now smoke a day? CIGARETTES _____

[Q187]

188. On how many of the past 30 days did you smoke cigarettes? DAYS _____

[Q188]

IF Q186=3, ASK:

189. On the average, when you smoked, about how many cigarettes did you smoke a day? CIGARETTES _____

[Q189]

190. For how many years did you smoke? YEARS _____

[Q190]

[SMOKER] Categorical variable for smoker status. NEVER SMOKED 0 CURRENT
SMOKER 1 FORMER
SMOKER 2

[PACKYEARS] Calculates pack/years for former and _____ current smokers

190a. Do you vape or use e-cigarettes every day, some days EVERY DAY.....1 or not at all?
SOME DAYS.....2

NOT AT ALL.....3

[Q190a]

191. During the past month, have you had at least one drink YES 1 of any alcoholic beverage,
such as beer, wine, or liquor? NO 0 [SKIP TO Q195A]

[Q191]

IF Q191=1, ASK:

192.	During the past month, how many days per week or month did you drink any alcoholic beverages, on average?	DAYS PER WEEK [Q192_WEEK] DAYS PER MONTH [Q192_MONTH]
193.	If a drink is considered one can or bottle of beer, one glass of wine, one cocktail or one shot of liquor, on the days when you drank, about how many drinks did you have on the average?	____ DRINKS PER OCCASION [Q193]
194.	Considering all types of alcoholic beverages, how many times during the past month did you have five or more drinks on an occasion?	____ TIMES [Q194]

- 195a. Which of the following best describes your activity level? Seldom active.....1 physical activity level? Moderately active for at least 30 minutes, 3 or more times a week.....2 Vigorously active for at least 30 minutes, 3 or more times a week.....3
[Q195A]
- 195b. In the past month, on how many days have you done a total of _____ DAYS 30 minutes or more of recreational physical activity that was enough to raise your breathing rate? [Q195B]
196. In the past 12 months, how many times have you _____ TIMES been an overnight patient in a hospital for at least longer? [Q196] one day or
197. About how long has it been since you saw or _____ 1 YEAR OR LESS1 talked to a doctor or other health care 1 TO 3 YEARS2 professional – 1 year or less, 1 to 3 years or more MORE THAN 3 YEARS.....3 than 3 years? [Q197]

THERE IS NO Q198 OR Q199

IF ON EMPLOYER'S INSURANCE PLAN (Q057A = 1, Q098A = 1 OR Q141A = 1), SKIP TO Q205

200. Do you currently have any kind of health care coverage? YES 1 This would include health insurance, prepaid plans such NO 0 as H-M-O's, or any government sponsored plans such [Q200] as Medicare or Medi-Cal?

IF Q200=2, ASK:

201a.	Did you have health care coverage at any point YES 1 during the past 12 months? NO..... 0	[Q201A]
-------	---	---------

THERE IS NO Q 202, Q203 OR Q204

DEMOGRAPHIC AND ECONOMIC QUESTIONS

205. Are you married, a member of an unmarried couple, MARRIED 1 separated or divorced, widowed, or never been UNMARRIED COUPLE 2 married? SEPARATED/DIVORCED 3

WIDOWED 4

NEVER BEEN MARRIED 5

[Q205]

206. What is the highest year of school that you have Less than high school1 completed or the highest degree you have received? High school graduate2 2-year college /Associate degree3 Trade/vocational school degree4 Some college, no degree5 Bachelor's degree/college6

Master's degree/ doctoral degree or professional school degree7

[Q206] IF MARRIED OR

A MEMBER OF AN UNMARRIED COUPLE (Q205 = 1 OR 2), ASK:

207.	What is the highest year of school that your spouse or partner has completed or the highest degree he or she has received?	Less than high school1 High school graduate2 2-year college /Associate degree3 Trade/vocational school degree4 Some college, no degree5 Bachelor's degree/college6 Master's degree/ doctoral degree or professional school degree7
		[Q207]

208a. About how tall are you without shoes? _____ INCHES

[Q208A_INCHES]

208b. About how much do you weigh without shoes? (IF VOLUNTEERS THAT SHE IS PREGNANT, ASK: What was your pre-pregnancy weight?) _____ POUNDS

[Q208B_LBS]

[BMI] Calculated BMI.

(NOTE: RESPONDENTS COULD PROVIDE METRIC OR IMPERIAL HEIGHT/WEIGHT VALUES. ALL RESPONSES HAVE BEEN CONVERTED TO INCHES & POUNDS.)

209.	Including yourself, how many people live in your household?	_____ TOTAL
		[Q209]

IF RESPONDENT LIVES WITH OTHER PEOPLE (209>1), ASK:

210.	Including yourself, how many are adults age 18 or older?	_____ ADULTS
		[Q210]

IF Q209>Q210 ASK:

211.	How many are children under age 5?	_____ UNDER 5
		[Q211]

212.	How many are age 5 through 17?	_____ AGE 5-17 [Q212]
------	--------------------------------	--------------------------

IF RESPONDENT LIVES WITH CHILDREN OF ANY AGE (Q211>0 OR Q212>0), ASK

213.	How many hours in a typical day do you spend caring for the needs of the children? Just your best estimate	_____ HOURS [Q213]
------	--	-----------------------

IF RESPONDENT LIVES WITH Q211>0, ASK:

214.	For how many hours were the children under age five in paid childcare last week?	_____ HOURS [Q214]
------	--	-----------------------

IF MORE THAN ONE ADULT IN HOUSEHOLD (Q210>1), ASK:

215.	How many hours in a typical day do you spend taking care of the needs of any elderly or disabled adults in your household, such as helping with bathing or cooking or doing errands or taking them to medical care?	_____ HOURS [Q215]
------	---	-----------------------

Accepted app names include: Rover, CareRev, Gento, Papa Pal, Wag!, Wyzant.com, Zell, Care.com, Tutors.com, Superprof.
	q112ai_oddjob	30-day job: oddjob app	yes_no		Respondent uses an app in their 30-day job to find one-time roles providing customers with services such as home repair, manual labor, etc. Accepted app names include: Angi, Taskrabbit, Thumbtack, Angi, Fiverr, The Bash, GigSalad, Househappy, RDCL, Upwork, Workwhile.
	q112ai_entertainment	30-day job: entertainment app	yes_no		Respondent uses an app in their 30-day job to arrange solo entertainment gigs (i.e. birthday party entertainer), or gig jobs in the entertainment industry (food service, movie/film set gigs, etc.) Accepted app names include: Booked Talent, Everyset, Field Agent, Mandy.com, Backstage.com, Newbook, Qwick, Wrapbook.
	q112ai_delivery	30-day job: delivery app	yes_no		Respondent uses an app in their 30-day job like Uber Eats, Grubhub, or Amazon Flex to deliver food, groceries, or packages. Accepted app names include: Amazon Flex, Caviar, DoorDash, Grubhub, Instacart, Postmates, Shipt, Uber Eats, Spark Driver.
	q112ai_assorted	30-day job: assorted app	yes_no		Respondent uses an app in their 30-day job that meets the BLS definition of "app work" but doesn't fit into any of the other categories. Accepted app names include: Branded, Surveyjunkie, Tellwut.
	q113	30-day job: payment method	formpayment	1 Traditional paycheck/direct deposit, 2 Personal check, 3 Electronic payment service, 4 Cash, 5 Prepaid debit card	
	q113a	30-day job: hourly or a fixed salary	hourlysalary	1 Hours worked, 2 Fixed salary	
	q113a1	30-day job: bonuses, tips, or commissions	yes_no		
	q113b	30-day job: paid piece rate	yes_no		
	q114	30-day job: employer deductions	yes_no		
	q115	30-day job: income tax form	taxform	1 W2, 2 1099, 3 Neither	
	q116	30-day job: unpaid work	yes_no		

	q117a	30-day job: who decides how work is done	workdecision	1 You/worker decide, 2 Company decides	
	q117b	30-day job: product/service company provides	text		
	q117b_indcode	30-day job: full NAICS code for self-employed	numeric		

Section	Variable Name	Variable Label	Value label name	Value label	Definition Notes
	q117b_indcode_2dig	30-day job: NAICS code first two digits for selfemp.	numeric		
	q117b_indcode_3dig	30-day job: NAICS code first three digits for selfemp.	numeric		
	q117c	30-day job: in business for themselves	yes_no		
	q118	30-day job: can choose to stay at current job	yes_no		
	q119	30-day job: expect job to end in next 12 mos	yes_no		
	q120	30-day job: temp. employment agency	yes_no		
	q121	30-day job: company contracts services out	yes_no		Corrected responses to q121, editing process described in narrative documentation.
	q122	30-day job: Size of firm	firmsize	1 <10, 2 10-99, 3 100-1000, 4 >1000	
	q123	30-day job: Work schedule	shiftsched	1 Regular daytime schedule, 2 Regular evening shift, 3 Regular nighttime shift, 4 Rotating shift, 5 Split shift, 6 Variable shift	
	q124_old	30-day job: On call work (original values, do not use for analysis)	yes_no		
	q124a	30-day job: On call work past week (imputed)	yes_no		
	q124a_flag	30-day job: On call work Q response imputed?	yes_no		

	q125	30-day job: Overtime work	yes_no		
	q126	30-day job: Flexible hours	yes_no		
	q127	30-day job: Supervise others	yes_no		
	q128	30-day job: Work at home	wfh	1 All of the time, 2 Some of the time, 3 None of the time	
	q131	30-day job: Days paid sick leave	numeric		
	q131_unlimited	30-day job: unlimited paid sick leave	yes_no		
	q132_a	30-day job: requires learn new things	job_experience	1 Agree Strongly, 2 Agree somewhat, 3 Disagree somewhat, 4 Disagree strongly	This variable was derived from the JCQ. See q048_a definition notes for citation.

Section	Variable Name	Variable Label	Value label name	Value label	Definition Notes
	q132_b	30-day job: little freedom over work	job_experience		This variable was derived from the JCQ. See q048_a definition notes for citation.
	q132_c	30-day job: allows independent decisions	job_experience		This variable was derived from the JCQ. See q048_a definition notes for citation.
	q132_d	30-day job: enough time to finish work	job_experience		This variable was derived from the JCQ. See q048_a definition notes for citation.
	q132_e	30-day job: very fast without breaks	job_experience		This variable was derived from the JCQ. See q048_a definition notes for citation.
	q132_f	30-day job: work speed monitored	job_experience		This variable was derived from the JCQ. See q048_a definition notes for citation.
	q132_g	30-day job: fear job loss if too slow	job_experience		This variable was derived from the JCQ. See q048_a definition notes for citation.
	q132_h	30-day job: fear job loss if take break	job_experience		This variable was derived from the JCQ. See q048_a definition notes for citation.
	q134_a	30-day job: requires walking?	occhealthass	1 A lot, 2 Sometimes, 3 Not at all	
	q134_b	30-day job: Use stairs or inclines?	occhealthass		
	q134_c	30-day job: Stand for four+ hours?	occhealthass		
	q134_d	30-day job: Sit for long periods?	occhealthass		

	q134_e	30-day job: Stoop, crouch or kneel?	occhealthass		
	q134_f	30-day job: Bend over or twist around?	occhealthass		
	q134_g	30-day job: Lift or carry up to 50 lbs?	occhealthass		
	q134_h	30-day job: Lift or carry up to 10 lbs?	occhealthass		
	q134_i	30-day job: Repeat a hand motion?	occhealthass		
	q134_j	30-day job: Pinch or grasp items or tools?	occhealthass		
	q134_k	30-day job: Use vibrating/power tools?	occhealthass		
	q134_l	30-day job: Ride in vehicle?	occhealthass		
	q134_m	30-day job: Use computers/devices?	occhealthass		
	q134_n	30-day job: Concentrate for long periods?	occhealthass		
	q134_o	30-day job: Interact with other people?	occhealthass		

Section	Variable Name	Variable Label	Value label name	Value label	Definition Notes
	q135	30-day job: Level of schooling required	reqschool	1 High school, 2 Associate's degree or vocational school, 3 Bachelor's degree, 4 Graduate or professional degree	
	q137_a	30-day job: Bullying by supervisor	bully_respect	-8 Not Applicable, 1 Never, 2 Occasionally, 3 Frequently

	q142	30-day job: job pension	yes_no		
Job History Questions					
	q143	Displaced: Lost a job within past 3yrs?	yes_no		
	q145	Displaced: Lost job was in past 12mos?	yes_no		
	q146yrs	Displaced: Yrs employed at lost job?	numeric		If response was < 1 year, response to q146yrs is recorded as 0.
	q147	Displaced: Worked since lost job?	yes_no		
	q150	Any other job longer than job(s) described?	yes_no		
	longjob	Which job is their longest?	longjob	1 first seven day, 2 second seven day, 3 thirty day, 4 some other job	This variable specifies which job the respondent held longest in their life. The other longest job variables have been filled with the respondent's answers to questions about that job.
	longlastyr	Year last worked at longest job	numeric		
	longyrs	Years worked at longest job	numeric		If response was < 1 year, length of time in months is recorded in this variable as a fraction of a year (i.e., .08 = 1 month, or 1/12 of a year).
	longocc_text	Longest Occupation	text		Text response from respondent about their occupation at their longestheld job.
	longocc_code	Longest Job: full SOC code	numeric		Up to 6-digit Standard Occupational Classification (SOC) code based on text response.

Section	Variable Name	Variable Label	Value label name	Value label	Definition Notes
	longocc2dig	Longest Job: SOC code first two digits	numeric		First 2 digits of assigned SOC code.
	longocc3dig	Longest Job: SOC code first three digits	numeric		First 3 digits of assigned SOC code.
	longind_text	Longest Industry	text		Text response from respondent about the industry of their longest-held job.
	longind_code	Longest Job: full NAICS code	numeric		Up to 6-digit North American Industry Classification System (NAICS) code based on text response.

	longind2dig	Longest Job: NAICS code first two digits	numeric		First 2 digits of assigned NAICS code.
	longind3dig	Longest Job: NAICS code first three digits	numeric		First 3 digits of assigned NAICS code.
	q156	Age began working	numeric		
	q156_before_10	Began working <age 10	yes_no		
	q157	Consistent work	yes_no		
	q158	Number occasions without work	timesnowork	1 Once, 2 Twice, 3 Three or more times	
	q161	Any Discrimination?	yes_no		
	q161_age	Discrimination: Age	yes_no		
	q161_sex	Discrimination: Sex	yes_no		
	q161_gender	Discrimination: Gender	yes_no		
	q161_sexual_orientation	Discrimination: Sexual orientation	yes_no
