

# THE RESEARCH-TO-PRACTICE (R2P) TOOLKIT AND WHY COMMUNITY ENGAGEMENT MATTERS

**Monique Hosein, DrPH, MPH**  
**Labor Occupational Health Program (LOHP)**  
**June 25, 2025 | 9 - 10 AM HST | 12 - 1 PM PT**

**Register:** [calaborlab.ucsf.edu/webinars](https://calaborlab.ucsf.edu/webinars)

## About the Webinar:

This webinar will introduce the Research-to-Practice (R2P) Toolkit, a practical guide to help research teams create a plan to engage key stakeholders and disseminate findings. The R2P Toolkit supports researchers in identifying people and organizations who have a stake in the outcome of research, and in developing a plan to move research findings off of the journal page and into the field.

## Learning Objectives:

At the completion of this activity, the learner will be able to:

- Discuss levels of community engagement
- Describe the connection between community engagement and effective dissemination of research findings to improve worker health
- Access the R2P Toolkit and create a plan to engage with communities and disseminate research findings

## Speaker:

Monique Hosein DrPH, MPH, is a Coordinator of Public Programs at the Labor Occupational Health Program (LOHP). Her project portfolio includes leading the Worker Occupational Safety and Health Training and Education Program and School Action for Safety and Health programs. Monique is a graduate of the Doctor of Public Health program at UC Berkeley School of Public Health and the Master of Public Health program at San Francisco State University.
